

SIERRA-SACRAMENTO VALLEY EMS AGENCY PROGRAM POLICY

REFERENCE NO. 460

SUBJECT: TACTICAL MEDICINE OPERATIONAL PROGRAMS

PURPOSE:

To define the approval, training, utilization and equipment requirements of tactical medicine operational programs in the S-SV EMS region.

Tactical Medicine: The delivery of medical services for law enforcement special operations.

AUTHORITY:

California Health and Safety Code 1797.218, 1797.220 and 1798

California Code of Regulations, Title 22, Division 9, Section 100145 & 100169

California POST / EMSA Tactical Medicine Operational Programs and Standardized Training Recommendations – July 2009

OVERVIEW:

The tactical incident response environment presents unique challenges to law enforcement personnel and for the personnel providing emergency medical care and support services in that environment. Tactical medical care providers must have a clear understanding of and consideration for law enforcement response and tactics and the mission-specific objectives of a tactical operation when planning for and providing medical support. The primary goal of tactical medicine is to support and assist a tactical team in accomplishing its mission during a deployment or response to a critical incident.

INDICATIONS:

Approved tactical medical personnel should be utilized when appropriate and available to provide medical support services for law enforcement special operations.

PROCEDURE:

- A. Tactical medicine programs shall be developed and utilized in accordance with the “California POST / EMSA Tactical Medicine Operational Programs and Standardized Training Recommendations” document which can be located on the EMSA website at http://www.post.ca.gov/Training/Tactical_Medicine/default.asp

Effective Date: 06/01/2010

Date last Reviewed / Revised: 03/10

Next Review Date: 03/2013
