You're invited!

Interactive workshop with Tim Phalen

12/15- Lead ECG and STEMI:

Critical thinking for ECG analysis, STEMI detection, & more!

A unique approach designed to increase correct STEMI activation and reduce STEMI overall.

- Correctly apply STEMI recognition criteria
- Quickly rule out top STEMI imposters
- Suspect STEMI in the presence of an imposter
- Acquire and Interpret 15-lead ECGs
- OMI and STEMI equivalents
- A model of critical thinking that integrates the patient presentation, your ECG findings and the devices statement

When:

Thursday, April 23, 2026
10:00 a.m. – 2:00 p.m.

Lunch will be provided

Where:

Sacramento Metro Fire
Headquarters
Sacramento, CA |
